

08. AVL Trees

dbserver.korea@gmail.com

Agenda

- Tree Problem
 - AVL Tree & Binary Tree Height

Tree Height

- Implement a function to evaluate Tree height.
- Operations :
 - **bstHeight** – evaluate the height of a binary search tree
 - **_bstHeight** – inner function of bstHeight
 - **avlHeight** – evaluate the height of a avl tree
 - **_avlHeight** – inner function of avlHeight
 - **Modify code if you want.**
